Hi Nonvikan Karl-Augustt

Just circling back about KiDs A.I. INC.'s incomplete on-boarding to the IBM Partner Program.

Are you responsible for completing the partnering process? If not, please send me the right person.

If you haven't had time to watch the video I sent before, here's a link to the slides you can flip through.

Did you know new IBM partners get no-charge training, marketing & pipeline ignition funds and generous deal incentives to help boost profitability from the first transaction.

I look forward to hearing from you.

James
